Summary

Data Scientist with 7+ years building production ETL pipelines, cloud-native data platforms, and automated analytics infrastructure in banking and e-commerce.

AWS certified with experience in workflow orchestration and data warehousing, financial domain expertise spanning reporting, analytic dashboards, and financial modeling.

Work Experience

Data Scientist, Bank of Montreal

Sep 24 - Present

- Designed and deployed AWS-native ETL pipelines orchestrated via MWAA ingesting data from RDS, Redshift, and S3 into production datamarts ~3M records daily in ~7 min with stable production uptime.
- Replaced manual weekly data loading workflows with automated scheduled pipelines, establishing data quality monitoring infrastructure for downstream AI/ML initiatives.
- Migrated Excel QA reporting to Power BI using SQL and DAX, reducing QA reporting cycles from 2-3 weeks to near real-time with drill-down analytics.
- Awarded Grand Ovation and Exceptional Performance Rating for datamart ETL infrastructure modernization. ERPM AI Champion [🔗](#)

Senior Financial Analyst, Bank of Montreal

May 22 - Sep 24

- Automated capital reporting and variance analysis using SAS and Power BI with loan-level drill-down, reducing analysis time by ~80% while supporting RWA forecasting for Canadian P&C Banking portfolios.
- Top 10% performer in FY23 with two Spotlight Awards for reporting modernization and Basel III implementation.

Senior FP&A Specialist, Tiki Corp.

Apr 20 - Apr 22

- Built profitability data pipelines using Airflow and BigQuery consolidating multi-source data into centralized reporting infrastructure.
- Designed Google Data Studio dashboards for e-commerce categories generating ~\$150M revenue at 20-30% growth rates.

Senior Consultant, Deloitte

Apr 18 - Jun 19

- Led due diligence for 9 M&A transactions (\$10M-\$25M) across renewable energy, real estate, automobiles, and agriculture, identifying critical risks and proposing mitigating factors.
- Developed valuation models for FinTech and FMCG clients, contributing to \$15M in secured funding.

Senior Auditor, PwC

Aug 13 - Nov 15

- Audited financial statements for banks, investment funds, and companies across real estate, pharmaceutical, and oil and gas sectors, evaluating internal controls and ERP system integrity.
- Top 10% performer, PwC Excellent Performance FY15.

Education & Certifications

Chartered Financial Analyst (CFA) Charterholder

May 21

- Completed all three CFA exams, ranking among top performers in Quantitative Methods, Derivatives, Economics, and Asset Allocation.

AWS Certified Data Engineer Associate [🔗](#)

Nov 25

- Glue, Step Functions, Kinesis, Lake Formation for production-grade ETL and data lake architectures.

AWS Certified Solutions Architect Associate [🔗](#)

Feb 24

- Secure, scalable AWS architectures using VPC, EC2, Lambda, S3, and RDS.

MBA, Finance & Consulting, University of Missouri

Aug 16 - Dec 17

- Developed Monte Carlo simulation model for agricultural production optimization, placing third in Monsanto-Olin MBA Case Competition.

Skills

Languages: Python, SQL, Bash

AWS: S3, RDS, Redshift, Sagemaker, Lambda, Glue, MWAA, Bedrock

Google Cloud Platform: BigQuery, Vertex AI, Looker, Look ML, Google Data Studio

Data Engineering & Analytics: Airflow, ETL/ELT Pipelines, Data Warehousing, Data Modeling, Power BI, DAX

Developer Tools: Git, Linux, Neovim, tmux, CLI AI Assist (Claude Code, OpenCode)
